Technical Skills

Programming Languages

- C/C++, Python, Java, SQL

Others

- HTML, CSS, Numpy, Pandas, Matplotlib

Projects

Car detection system

- Implemented in Jupyter Notebook
- Uses parameters from pre-trained YOLO model for object detection

Image compression

- Uses K-means clustering algorithm for image compression
- PCA to perform dimensionality reduction

Spam classifier

- Spam classifier using SVMs

Transportation App

- Android application for people in transportation businesses to check on the activities
- Different login and interface for service providers and customers

Education

BE Computer Science and Engineering	2016-2020
--	------------------

MIT College of Engineering, Pune

7.46 CGPA

12th HSC	2015
------------------------------	-------------

Fergusson College, Pune

78.46%

10th SSC	2013
------------------------------	-------------

Dravid High School, Wai

96%

Certifications

- Deep Learning Specialization by deeplearning.ai
- Machine Learning by Stanford
